To whom it may concern:

Kali Mungovan is one of the most devoted, hard working, and patient people that I have ever worked with. She is a natural born leader, and is highly respected by her teammates and peers. As a captain of our team, Kali consistently follows through with work that is required of her, and then continues to go above and beyond to make sure everyone is taken care of. Kali is the kind of leader that everyone strives to be. She is a trustworthy person, and she is able to handle issues in an incredibly mature manner. She has constantly stepped up to help resolve problems, and commits to making our community a better place on a daily basis.

Not only does Kali lead by example, she has also taken on our social media platforms, aspects of our website, and is one of our group leaders when we have public events. She is my number one choice when we need a representative to speak with the public or sponsors. Kali is knowledgeable of what it takes to create positive interactions with the public, and has devoted ample amounts of time and energy to promoting the team in a positive way.

Kali will be successful in whatever she chooses to do. I recommend her to you with absolutely no hesitation. She is a valuable asset to our team, and she will be a difficult team member to replace. I have great confidence that Kali will be an exceptional addition for your team.

If you have any questions, please do not hesitate to contact me.
